CARE & MAINTENANCE

Maintaining Warner Stone products is easy. All you need is a damp cloth and some warm water with a cleaning product that is pH neutral to keep it looking new. Our products have a smooth and glossy surface that does not require polishing or sealing because they are non-porous.

Interior Use Only

Warner Stone products are designed for interior use only. Exposure to direct sunlight or weather may result in discoloration or damage over time, and therefore, is not covered by our warranty.

Preparation of Food

To prevent damage to the Warner Stone surface, avoid using sharp objects on it. It's better to use cutting boards or plates while preparing food instead of doing it directly on the Warner Stone surface. This will not only prevent damages to the benchtop, but also to your kitchen appliances or implements.

Heat Resistance

Protect your Warner Stone product from damages by avoiding placing hot pots directly on it. While our products can resist high heat, sudden temperature changes or thermal shock can cause harm, especially to the edges. It's best to use heat-resistant mats or trivets to keep your product safe.

How Tough

Using harsh chemicals or solvents like oven cleaners with high pH levels can cause permanent damage to the surface. Don't use products containing trichloroethane or methylene chloride. If any harmful substances come into contact with the surface, rinse it immediately with water.

Textured Finish

We offer additional finishes for our products, including matte and textured options. These finishes work just as well as our polished collections. However, they may need more maintenance to retain their optimal appearance due to the less smooth finishes. It's best to clean up any spills or stains right away and use a clean cloth to avoid getting dirt or oils on the surface.

10 YEARS LIMITED WARRANTY

WARRANTY INCLUSIONS

WARNER STONE warrants that its engineered quartz stone products will be free from manufacturing defects and will perform under normal use for a period of ten (10) years from the date of installation. This warranty applies only to the original purchaser and is not transferable.

This warranty does not cover damage resulting from improper handling, fabrication, installation, or maintenance, including damage caused by exposure to extreme temperatures, physical or chemical abuse, or staining.

In the event of a manufacturing defect, WARNER STONE will, at its discretion, repair or replace the affected portion of the product or provide a credit equal to the original purchase price of the product. This warranty does not cover installation or fabrication costs, or any indirect or consequential damages.

To make a claim under this warranty, the purchaser must provide proof of purchase and notify WARNER STONE in writing within 30 days of discovering the alleged defect. WARNER STONE reserves the right to inspect the product and to determine the validity of the claim.

WHAT IS NOT INCLUDED IN THE WARRANTY

- Improper installation, fabrication, or maintenance, including modifications to the surface after installation.
- Accidents or misuse, such as scratches, chips, or cracks caused by sharp or heavy objects.
- Exposure to extreme temperatures or conditions, including fireplaces or locations near swimming pools.
- Exposure to harsh chemicals or solvents that may cause discoloration or damage to the surface.
- Changes in color or texture due to natural wear and tear, exposure to sunlight, or other environmental factors.
- Variations in color or texture between different slabs or pieces of the same product.
- Damage caused by alterations or modifications made to the product after installation.
- Damage caused by natural disasters, such as earthquakes or floods.
- Neglect or lack of proper care and maintenance.
- Failure to pay in full.
- Installation by a non-licensed or unqualified stonemason.
